

UNIVERSITY OF CALIFORNIA

# **2012 Annual Accountability Report**

## **Data Glossary and Technical Appendix**

## UC 2012 Annual Accountability Report Data Glossary

The following provides brief information on data sources and terms used in the 2011 Accountability Report and hyperlinks for further information. The majority of the data for this report was generated by UCOP's Institutional Research (IR) Unit. In addition, some other UC policy departments provided data as noted.

### **American Association of University Professors (AAUP)**

The American Association of University Professors is an organization of professors and other academics in the United States. It conducts an annual survey of faculty compensation which is used in this report to compare UC's faculty salaries. More information on the AAUP data set can be found at: [www.aaup.org/AAUP/comm/rep/Z/ecstatreport09-10](http://www.aaup.org/AAUP/comm/rep/Z/ecstatreport09-10).

### **Association of American Universities (AAU)**

The Association of American Universities (AAU) is an association of 63 leading public and private research universities in the United States and Canada. A list of the institutions can be found in Table 6 of this glossary. Membership in AAU is by invitation and is based on the high quality of programs of academic research and scholarship and undergraduate, graduate, and professional education in a number of fields, as well as general recognition that a university is outstanding by reason of the excellence of its research and education programs. Throughout this report, the two AAU institutions in Canada are excluded from the "Non-UC AAU Public" group because the Canadian institutions do not submit data to the U.S. Department of Education which is the source of the AAU data used here. For more information, visit [www.aau.edu](http://www.aau.edu).

### **California Health Care Foundation**

The California Health Care Foundation is a nonprofit philanthropy that provides policy and data analysis on health care issues facing California. More information can be found at: [www.chcf.org](http://www.chcf.org)

### **California Postsecondary Education Commission (CPEC)**

The California Postsecondary Education Commission was established in 1974. The Commission provides the legislative and the executive branches of government with advice and information about major policy and planning issues concerning education beyond high school. For more information, visit [www.cpec.ca.gov](http://www.cpec.ca.gov).

### **California State Bar Association**

The California State Bar Association is California's official bar association and is responsible for managing the admission of lawyers to the practice of law. More information can be found at: [www.calbar.ca.gov](http://www.calbar.ca.gov).

### **California State Department of Finance**

The California State Department of Finance is a state cabinet-level agency that is responsible for preparing, explaining and administering the state's annual financial plan. The Department also is responsible for creating and monitoring current and future economic forecasts for the state, estimating population demographics and enrollment projections. More information can be found at: [www.dof.ca.gov](http://www.dof.ca.gov).

## **Carnegie Classifications**

The Carnegie Classification has been the leading framework for recognizing and describing institutional diversity in U.S. higher education for the past four decades. Starting in 1970, the Carnegie Commission on Higher Education developed a classification of colleges and universities to support its program of research and policy analysis. Derived from empirical data on colleges and universities, the Carnegie Classification was originally published in 1973, and subsequently updated in 1976, 1987, 1994, 2000, 2005, and 2010 to reflect changes among colleges and universities. This framework has been widely used in the study of higher education, both as a way to represent and control for institutional differences, and also in the design of research studies to ensure adequate representation of sampled institutions, students, or faculty. This report uses “Research Universities with very high research activity” (RU/VH) (2005 Classification) and “Research University-Extensive” (2000 Classification) as a comparison group for the UC. For more information, visit <http://classifications.carnegiefoundation.org>.

## **Comparison 8 (Comp 8)**

The “Comparison 8” institutions are the eight universities—four public and four private—with which UC regularly compares faculty pay scales and student fees. This group is widely recognized as appropriate for purposes of comparison by such external agencies as the California Department of Finance. The public universities are: University of Illinois, University of Michigan, University of Virginia, and SUNY Buffalo. The private universities are: Harvard University, Massachusetts Institute of Technology, Stanford University, and Yale University.

## **CPI (Consumer Price Index)**

The CPI is a measure of inflation experienced by consumers, and an important indicator of the condition of the economy. It can be used to adjust other economic data for changes in price level and to convert them into inflation-free dollars. For example, retail sales, and income data are “deflated” to assess their “real” movements over time. This report generally uses the CPI-U (CA), published by the California Department of Finance and measuring prices for urban consumers in California, to adjust dollars. Certain sections of the report with data provided by other entities use the CPI-W, published by the federal Bureau of Labor Statistics, which is the Consumer Price Index for Urban Wage Earners and Clerical Workers. For more information on the CPI-U (CA), visit [www.dof.ca.gov/HTML/FS\\_DATA/LatestEconData/FS\\_Price.htm](http://www.dof.ca.gov/HTML/FS_DATA/LatestEconData/FS_Price.htm). For more information on the CPI-W, visit [www.bls.gov/cpi](http://www.bls.gov/cpi).

## **Council on Aid to Education (CAE)**

The Council for Aid to Education (CAE) is a national nonprofit organization based in New York City. Initially established in 1952 to advance corporate support of education and to conduct policy research on higher education, today CAE is also focused on improving quality and access in higher education. CAE's Voluntary Support of Education (VSE) survey is the authoritative national source of information on private giving to higher education and private K-12, consistently capturing about 85 percent of the total voluntary support to colleges and universities in the United States. CAE has managed the survey as a public service for over 50 years. For more information, visit [www.cae.org](http://www.cae.org).

### **IPEDS (Integrated Postsecondary Education Data System)**

IPEDS is the Integrated Postsecondary Education Data System. It is a system of interrelated surveys conducted annually by the U.S. Department's National Center for Education Statistics (NCES). IPEDS gathers information from every college, university, and technical and vocational institution that participates in the federal student financial aid programs. The Higher Education Act of 1965, as amended, requires that institutions that participate in federal student aid programs report data on enrollments, program completions, graduation rates, faculty and staff, finances, institutional prices, and student financial aid. IPEDS provides basic data needed to describe — and analyze trends in — postsecondary education in the United States, in terms of the numbers of students enrolled, staff employed, dollars expended, and degrees earned. IPEDS forms the institutional sampling frame for other NCES postsecondary surveys, such as the National Postsecondary Student Aid Study and the National Survey of Postsecondary Faculty. For more information, visit <http://nces.ed.gov/ipeds>. More detail on the collection of faculty and staff numbers can be found here: [http://nces.ed.gov/ipeds/surveys/2008/pdf/HR\\_2008.pdf](http://nces.ed.gov/ipeds/surveys/2008/pdf/HR_2008.pdf).

### **National Research Council's Assessment of Research Doctoral Programs**

The National Research Council (NRC) periodically assesses research doctoral programs. Data in this report are from the Data-Based Assessment of Research-Doctorate Programs which was originally released on September 28, 2010 with a revised data release in April 2011. Data were collected from about 5,000 doctoral programs across 62 fields at 212 research universities. Data are based on the 2005-06 academic year; and for some data elements, for prior years as well. More information can be found at: <http://sites.nationalacademies.org/pga/Resdoc/index.htm>.

### **NPSAS (National Postsecondary Student Aid Study)**

The National Postsecondary Student Aid Study is the most comprehensive, nationally representative survey of student financing of postsecondary education in the United States. Since 1987, NPSAS has been conducted every 3 to 4 years by the National Center for Education Statistics (NCES) of the Institute of Education Sciences, U.S. Department of Education. Previous NPSAS surveys were administered during the academic years 1986–87, 1989–90, 1992–93, 1995–96, 1999–2000, 2003–04 and 2007-08. Undergraduate and graduate students enrolled at all types of postsecondary institutions are represented. These include public, private not-for-profit, and private for-profit sector institutions at every level: less-than-2-year, 2-year, 4-year, and graduate-only institutions.<sup>1</sup> For more information, visit <http://nces.ed.gov/surveys/npsas>.

### **National Student Clearinghouse**

The National Student Clearinghouse is an industry-sponsored consortium that was established to proactively enhance the overall student loan program and simplify enrollment verification. It collects and provides data on student enrollments and allows institutions to track students who transfer to other institutions. For more information, visit <http://www.studentclearinghouse.org>

<sup>1</sup> <http://nces.ed.gov/pubs2009/2009166.pdf>

### **National Study of Postsecondary Faculty (NSOPF)**

The 2003–04 National Study of Postsecondary Faculty (NSOPF:04) included a sample of 1,080 public and private not-for-profit degree granting postsecondary institutions and a sample of 35,000 faculty and instructional staff. The weighted response rates for the two surveys were 86 and 76 percent, respectively. NSOPF gathers information regarding the backgrounds, responsibilities, workloads, salaries, benefits, attitudes, and future plans of both full- and part-time faculty. In addition, information was gathered from institutional respondents on such issues as faculty composition, turnover, recruitment, retention, and tenure policies.

### **Survey of Earned Doctorates (SED)**

The Survey of Earned Doctorates (SED) is a federal agency survey conducted by the National Opinion Research Center (NORC) for the National Science Foundation and five other federal agencies (National Institutes of Health, U.S. Department of Education, National Endowment for the Humanities, U.S. Department of Agriculture, and the National Aeronautics and Space Administration).

The SED gathers information annually from 45,000 new U.S. research doctorate graduates about their educational histories, funding sources, and post-doctoral plans. Each year the SED data are added to a larger historical record of doctorate-degree graduates, the Doctorate Records File (DRF). Begun in 1920, the DRF contains annual information used to track the number of graduates in various fields; the educational paths of scientists, engineers, and humanists; movement of graduates into the labor market; and similar information.

### **UC Academic Personnel Department**

The UCOP Academic Personnel department is the primary liaison in all matters related to academic appointees, including faculty, research and health science clinical faculty, librarians, lecturers, graduate student and postdoctoral appointees. The department maintains a number of policy documents and data related to faculty and other academic employees. More information can be found at: [www.ucop.edu/acadpersonnel](http://www.ucop.edu/acadpersonnel).

### **UC Alumni Survey 2010**

UC undertook a survey of baccalaureate degree recipients 5, 10 and 20 years after receiving their degrees (in 2004, 1999, and 1989, respectively) in order to fill a major gap in the information for assessment of student learning outcomes and success. The survey sample was designed to support analysis of students in different cohorts and disciplines. It will also permit some analysis of the experience of students drawn from different socio-economic, racial, and ethnic groups. A survey response rate deemed adequate to support campus comparison was deemed to be too costly to implement. Accordingly the data will not support campus-level analysis with statistical reliability.

Using addresses contributed by campus alumni associations and development offices, a total of 86,439 alumni who received their baccalaureate degrees in 1989, 1999 or 2004 were contacted and invited to respond to the survey instrument by email or by post. A total of 5,976 useable responses were received for an overall response rate of 8 percent, with individual campus response rates ranging from 5 percent to 10 percent. A comparison of respondents to the population of each of the three graduating cohorts revealed that there was no response bias related to gender, entry status, ethnicity, first-generation college status, first language, final UC GPA, campus, residency status at the time of admission, and Pell Grant recipient status.<sup>2</sup>

<sup>2</sup> Response bias testing for the class of 1989 was limited to gender, entry status, ethnicity, final UC GPA, and campus because data on the other variables was not collected when this cohort entered UC.

## **UC Audited Financial Statements**

UC, like all public entities, is audited by an external auditing firm. UC's external audit is performed by Price Waterhouse Coopers, an external independent certified public accounting firm reporting to the Regents. UC's audited financial statements can be accessed at: [www.universityofcalifornia.edu/reportingtransparency](http://www.universityofcalifornia.edu/reportingtransparency).

## **UC Budget for Current Operations**

UC budget documents can be found at: [www.universityofcalifornia.edu/reportingtransparency](http://www.universityofcalifornia.edu/reportingtransparency).

## **UC Budget Office**

The UCOP Budget and Capital Resources department maintains a wealth of budget and capital resources information which can be found at: <http://budget.ucop.edu>.

## **UC Corporate Contracts and Grants System**

The Corporate Contracts and Grants System (CGX) is a set of databases and processes that provides information about sponsored projects at the University of California. More information can be found at: [www.ucop.edu/irc/systems/cgx.html](http://www.ucop.edu/irc/systems/cgx.html).

## **UC Corporate Financial System**

The Corporate Financial System (CFS) contains financial data for all UC campuses and is available to corporate functional offices for inquiry and reporting purposes. The primary source of data in the CFS is a monthly transmittal file from each of the ten UC campuses. Each campus file contains data reflecting current financial, budgetary, and encumbrance balances and current month financial activity in the campus's general ledger. More information can be found at: [www.ucop.edu/irc/systems/cfs.html](http://www.ucop.edu/irc/systems/cfs.html).

## **UC Corporate Personnel System**

The Corporate Personnel System (CPS) is a reporting system that provides Office of the President management and staff with demographic, personnel, and pay activity data on employees paid at the ten campuses, the Office of the President, the Division of Agricultural and Natural Resources, the Lawrence Berkeley National Laboratory, Hastings College of Law, and the Associated Students of UCLA (ASUCLA). More information can be found at: [www.ucop.edu/irc/systems/cps.html](http://www.ucop.edu/irc/systems/cps.html).

## **UC Corporate Student System**

The Corporate Student System (CSS) is a set of databases and processes that provides information to meet the management, analytical, and operational needs of the UC Office of the President related to student enrollment and performance. The seven CSS databases contain information about enrollment, undergraduate and graduate admissions, financial support, degrees conferred, and health science resident and postdoctoral fellow appointees. The databases are created and/or updated with edited data received from the campuses and other sources, and are organized to allow both cross-sectional analyses and longitudinal studies of performance and persistence. Registrant and financial support databases are updated quarterly; remaining databases are updated annually. Among the significant reports produced from the Corporate Student System are the annual "Statistical Summary of Students and Staff," quarterly reports of headcount and student credit hour enrollment used for state funding allocations, and most of the university's student data submissions to the U.S. Department of Education's Integrated Postsecondary Education Data System (IPEDS). More information can be found at [www.ucop.edu/irc/systems/css.html](http://www.ucop.edu/irc/systems/css.html).

### **UC Enterprise Risk Management Information System**

The UCOP Office of Risk Services works to identify and manage risk throughout the UC system. More information on their Enterprise Risk Management Information System can be found at: [www.ucop.edu/riskmgmt/erm](http://www.ucop.edu/riskmgmt/erm).

### **UC Faculty Instructional Activities dataset (“TIE” data collection)**

UC conducts annual data collections from campuses on faculty instructional activities. This data collection was originally undertaken in response to a state reporting requirement which was not renewed. The 2007 annual report to the Legislature was the last mandated report; it can be found at: [www.ucop.edu/planning/fia/documents/fia\\_annlrpt2007.pdf](http://www.ucop.edu/planning/fia/documents/fia_annlrpt2007.pdf). Since that time, UC has continued to collect these data for management and accountability purposes.

### **UC Graduate Student Support Survey**

The UCOP Student Affairs department conducts periodic surveys of the competitiveness of UC graduate student support. Reports on this survey can be found at: [www.ucop.edu/sas/sfs/reports\\_data.html](http://www.ucop.edu/sas/sfs/reports_data.html).

### **UC Institutional Advancement Department**

The UCOP department of Institutional Advancement facilitates and encourages financial support for the University through private giving and other support. More information can be found at: [www.ucop.edu/instdv](http://www.ucop.edu/instdv).

### **UC Medical Centers Audited Financial Statements**

The UC medical centers, like all public entities, are audited by an external auditing firm. The medical center audited financial statements are published separately from UC’s external audit. They are performed by Price Waterhouse Coopers, an external independent certified public accounting firm reporting to the Regents. UC’s audited financial statements can be accessed at: [www.universityofcalifornia.edu/reportingtransparency](http://www.universityofcalifornia.edu/reportingtransparency).

### **UC Medical Schools**

Five UC campuses include medical schools: Davis, Irvine, Los Angeles, San Diego and San Francisco. And UC is planning for a sixth medical school at Riverside. More information on these schools can be found at: [www.universityofcalifornia.edu/health/medcenters.html](http://www.universityofcalifornia.edu/health/medcenters.html).

### **UC Statistical Summary of Students and Staff (StatSumm)**

Each spring, UC Information Resources and Communications publishes the Statistical Summary of Students and Staff, which summarizes data supplied by all campuses and serves as the official record of student enrollment at the University of California. The fall 2010 edition is the most recent in a continuous series of reports dating back to 1896. Early reports were called Statistical Addenda to the Biennial Report of the President. Additional information can be found at: [www.ucop.edu/ucophome/uwnews/stat](http://www.ucop.edu/ucophome/uwnews/stat).

### **UC Student Financial Support Annual Reports**

The UCOP Student Affairs department produces an annual report to the Regents in March of each year. These reports and other financial aid information can be found at: [www.ucop.edu/sas/sfs/reports\\_data.html](http://www.ucop.edu/sas/sfs/reports_data.html)

## UCUES (University of California Undergraduate Experience Survey)

The University of California Undergraduate Experience Survey (UCUES) solicits student opinions on all aspects of the UC experience. UCUES content is broad and covers most aspects of students' academic and co-curricular experience. Students evaluate such things as instruction, advising and student services. UCUES has been conducted as a biennial census of undergraduates. All respondents answer questions in the core as well as one of three or four module of additional questions to which they have been randomly assigned. Thus, the number of respondents can vary greatly for any given items. Investigations of response bias in the 2006 and 2008 administration are available at <http://cshe.berkeley.edu/research/seru/papers/SERU.TechR.Bias.5.25.07.pdf> and <http://cshe.berkeley.edu/research/seru/docs/NonResponseBias2008.pdf>. These investigations concluded that there was no need to weight the data. The system wide response rate for UCUES was 38 percent in 2006, 39 percent in 2008 and 42 percent in 2010. More information can be found at: [www.universityofcalifornia.edu/studentsurvey](http://www.universityofcalifornia.edu/studentsurvey).

**Table 1. UC Student Enrollment Classification Using UC Corporate Student System**

<i>Level</i>	<i>UC Degree Level</i>	<i>UC Student Level Code</i>	<i>Disciplines (CIP Categories)</i>		
<b>Graduate Academic</b>			<i>Excludes Post-baccs in discipline breakdowns</i>		
Academic Doctoral	PhD	6, 7, 8	Visual/Performing Arts	Foreign Languages	History
			English Literature	Philosophy	Liberal Arts
			Engineering	Area Studies	Bio/Life Sciences
Academic Masters	MA, MS	5 or Post-bacc.	Computer Science	Psychology	Conservation Science
			Math	Social Sciences	Interdisciplinary
			Physical Science	Agricultural Science	Other/Unknown
Professional Doctoral	EdD, DEnv, DPh, DPT, DNS, etc.	6, 7, 8	Business	Public Admin.	Criminology
			Architecture	Law (non-J.D.)	Health Sciences
			Education	Communications	Library Science
<b>Graduate Professional</b>		<i>Include self-supporting</i>			
Professional Masters	MBA, MPP, MPH, MSW, MLS, M. City Planning, MA/MS in Education, MEng, MFT, etc.	5	Business	Public Admin.	Criminology
			Architecture	Law (non-J.D.)	Health Sciences
			Education	Communications	Library Science
			Arts (MFT only)		
Professional Practice	JD, MD, OD, DDS, PharmD, DVM, AudD, etc.	5 or 6	Law (J.D. only)		Other Health Sciences
			Medicine (M.D. only)		
<b>Health Science Resident</b>	--	R	Health Sciences		
<b>Undergraduate</b>	BA, BS	1-4	All Disciplines, grouped into broad disciplines		

**Table 2. UC and Comparative Student Data Classification Using IPEDS Data**

Enrollment Level	Degree Classification	IPEDS Degree	Disciplines (CIP Categories)		
Graduate & Professional	Graduate Academic				
	Academic Doctoral	Doctor's Degree (old)	Visual/Perf. Arts English Literature Engineering Computer Science Math Physical Science	Foreign Languages Philosophy Area Studies Psychology Social Sciences Agricultural Science	History Liberal Arts Bio/Life Sciences Conservation Science Interdisciplinary Other/Unknown
		Doctor's Degree – research/scholarship (new)			
	Academic Masters	Master			
	Professional Doctoral	Doctor's Degree (old)	Business Architecture Education Military Science Homeland Security	Public Admin. Law (non-J.D.) Communications Parks & Recreation Agricultural Science	Criminology Health Sciences Library Science Theology
		Doctor's Degree – research/scholarship (new)			
	Graduate Professional				
	Professional Masters	Master	Business Architecture Education Military Science Homeland Security	Public Admin. Law (non-J.D.) Communications Parks & Recreation	Criminology Health Sciences Library Science Theology
Professional Practice	First Professional (old)	Law (J.D. only) Medicine (M.D. only)		Other Health Sciences Theology	
	Doctor's Degree – professional practice (new)				
Undergraduate	Undergraduate	Bachelor	All Disciplines, grouped into broad disciplines		

**Table 3. Broad Discipline Classification**

Broad Discipline	CIP Categories Included	
	When Using UC Corporate Data	When Using IPEDS Degree Data
Arts & Humanities	Visual/Performing Arts English Literature Foreign Languages Philosophy History Liberal Arts	Visual/Performing Arts English Literature Foreign Languages Philosophy History Liberal Arts
Life Sciences	Bio/Life Sciences Conservation Science Agricultural Science (select 01 CIPs)	Bio/Life Sciences Conservation Science Agricultural Science (select 01 CIPs)

Davis	Iowa State University	Brown University
Irvine	Michigan State University	California Institute of Technology
Los Angeles	Ohio State University Main Campus	Carnegie Mellon University
San Diego	Penn State University	Case Western Reserve University
Santa Barbara	Purdue University Main Campus	Columbia University In The City of New York
	Rutgers-New Brunswick & U. of Med/Dent. NJ	Cornell University
	State University of New York at Buffalo	Duke University
	State University of New York at Stony Brook	Emory University
	Texas A & M University	Harvard University
	University of Arizona	Johns Hopkins University
	University of Colorado at Boulder	Massachusetts Institute of Technology
	University of Florida	New York University
	University of Illinois at Urbana-Champaign	Northwestern University
	University of Iowa	Princeton University
	University of Kansas	Rice University
	University of Maryland College Park	Stanford University
	University of Michigan-Ann Arbor	Syracuse University Main Campus *
	University of Minnesota-Twin Cities	Tulane University
	University of Missouri - Columbia	University of Chicago
	University of Nebraska – Lincoln *	University of Pennsylvania
	University of North Carolina at Chapel Hill	University of Rochester
	University of Oregon	University of Southern California
	University of Pittsburgh Pittsburgh Campus	Vanderbilt University
	University of Texas at Austin	Washington University In St. Louis
	University of Virginia	Yale University
	University of Washington	
	University of Wisconsin-Madison	

\* Nebraska and Syracuse are no longer in the AAU as of spring 2011. However, their data are included in this report for the years they were members. In addition, Georgia Institute of Technology joined the AAU in spring 2010 and their data will be included in the comparison groups starting in the 2013 Accountability Report.

Source: University of California Statistical Summary of Students and Staff  
 Figures represent all enrollment, including health sciences. Due to limitations in data, all health sciences, including undergraduate, are included in the health science category.

## 1.2. University community, October 2011

	<b>Headcount</b>	<b>Percentage</b>
Undergraduate Students	181,197	49%
Graduate & Professional Students	49,740	13%
Medical Residents	5,423	1%
Faculty (includes Lecturers)	18,946	5%
Other Academics	14,767	4%
Staff	100,019	27%
<b>Total</b>	<b>370092</b>	

Source: UC Corporate Student System and Corporate Personnel System Source: UC Corporate Student and Personnel Systems. Note: student employees not included in the Staff category, and are shown above as students only. Excludes University Extension enrollments (extension enrollments are duplicated so it is unknown how many unique students these enrollments represent). For more details on undergraduate students, refer to chapter 2 tables. For more information on graduate and professional students, refer to chapter 5 tables. For more information on faculty and other academics, refer to chapter 6 tables. For more information on staff and student employees, refer to chapter 7 tables. Chapter 9 tables have information on the diversity of all these groups.

## 1.3. Operating revenues by source

See chapter 12 tables.

## 1.4. UC share of state budget, 1966-67 to 2011-12, not corrected for inflation, billions of dollars

Source: UC Corporate Student System. Regular students on a campus application, admit or enroll count are all admits except 2 groups: those that ONLY get admitted as a referral to all the campuses at which they are admitted, AND those that enrolled at a campus at which they received a referral admit (even if they have other regular admits). Regular students on the universitywide count are students for whom all admittance offers were regular offers, not referral offers.

The campus referral count includes students that ONLY received referral admits at the campuses to which they were admitted OR students that enrolled at a campus that admitted them as a referral. Referral students on the universitywide count are those that only received referral admits to all of the campuses at which they were admitted.

### 2.3.1 Entering freshmen by number of year-long UC-eligible courses

Source: UC Corporate Student System. Net cost is defined as each student's full cost of attendance less any grants, scholarships, and fee exemptions. Students were assigned to constant-dollar parent income categories based on the income they reported on either the Free Application for Federal Student Aid (FAFSA) or the UC Application for Undergraduate Admission, or imputed based on the parents' demographic profile. Net costs and incomes are expressed in constant 2009 dollars. Inflationary adjustments relied on the Consumer Price Index for Urban Wage-earners and Clerical Workers (CPI-W).

Source: IPEDS Student Financial Aid Survey, National Center for Education Statistics, US Department of Education.

Population: First-time, full-time students enrolled in Fall 2009 who were considered state residents for tuition purposes, received federal Title VI financial aid, and reported family incomes of \$30,000 or less. Definition: Published cost of attendance includes standard in-state tuition & fee amounts and whatever non-fee expenses (books, room & board, transportation, etc.) that the institution reported. It is important to note that there are large differences in how institutions determine their cost of attendance. While some inter-institution differences may be explained by actual differences in charges, others are due to institutional choices about which expenses to include and how to measure them. Net cost of attendance represents the average published cost of attendance minus the average amount of federal, state, and institutional grants and scholarships.

Source: IPEDS. Weighted-average graduation rates are shown for Universitywide, other AAU public and AAU private. Vanderbilt's 1996 cohort and University of Iowa's 2002 cohort were excluded due to missing values.

Graduation Rate is the percentage of enrollees who graduate after 4, 5 or 6 years for freshmen entrants, or 2, 3 or 4 years for transfer entrants. Summer term is included in "prior year" graduation rates for those freshmen receiving degrees from 1995 onward, and for those transfers receiving degrees from 1997 onward. Prior to these years, Summer term graduates are counted in the "next year".

Irvine	5,051	1,158	23%		251	242
Los Angeles	7,290	2,381	33%		398	700
Riverside	3,029	836	28%		206	99
San Diego	5,042	1,151	23%		221	287
Santa Barbara	4,619	1,083	23%		159	240
Santa Cruz	2,965	621	21%		93	127

Source: National Clearinghouse enrollment reports. Data represent the proportion of UC graduates who were enrolled at a four-year college or university for at least two terms on a half-time basis or more after earning their baccalaureate degrees. Presumably these are students who have gone on to earn additional post-graduate degrees.

#### 4.4. Student satisfaction, graduating seniors

Data provided by UC Institutional Research Unit. Source: UC Corporate Personnel System. Data shown are full-time equivalent numbers; for example two half-time employees equal one full-time equivalent employee. Headcount figures are not presented in this indicator because many academic employees do not have full-time positions.

Series	CTOs Included	Report Category
Professional Series & Equiv	010, 011, 012, 030, 031, 040, 041, 042, 114, 124, 210, 211, 212	Ladder Rank
In Residence	311	Visitors, Adjuncts, and Inst. Assts.
Clinical X Series	317	Lecturers
Lecturer	221 and 225	Other Faculty
Adjunct	335	Other Faculty
Health Science Clinical	341	Other Faculty
Other	323, 357	Visitors, Adjuncts, and Inst. Assts.
Administrators	Sxx	Administrators and Librarians
Researchers	5xx	Researchers
Librarians	6xx	Administrators and Librarians
Extension/Other	7xx, 8xx, 9xx	Other Non-Faculty (Extension)

Lecturers are also known as "Unit 18 Lecturers." UC also employs "Lecturers with security of employment"; there are fewer than 200 of these systemwide, they are members of the Academic Senate and they are included in the "ladder- and equivalent-rank faculty" category throughout this report.

Source: UC Corporate Student and Personnel Systems. The “other faculty” group includes professors in residence, professors-clinical, and health science clinical faculty. The “other academics” group includes only non-student employees and is comprised of many positions (e.g., librarians and administration categories) as well as academic researchers. The MSP group excludes students in these positions. The PSS group includes both represented and non-represented employees, and excludes students. Staff (SMG, MSP, PSS) do not track internationals as a separate category.

Source: UCUES. The 2008 and 2010 data were combined because of the small number of respondents who chose some of the categories. The LGBTQ category includes the following responses: Gay/lesbian, Bisexual, Self-identified Queer, and Questioning/Unsure. The Other category is its own category in UCUES. The data shown here do not include any other responses. Because the numbers for some of the groups listed above have small numbers, campus data are not reported separately.

Source: UC "TIE" Faculty Workload data collection. Student credit hours (SCH) are one measure used to assess faculty teaching workload. SCH is defined as the number of student enrollments in a course times the number of credits available from it. A four-credit class with 50 students generates 200 SCH; a two-credit class of 15 students generates 30 SCH. In this respect, SCH measures how much teaching faculty do across classes where enrollments and credits hours vary.

## Chapter 10. Research

### 10.1 Research workforce, full-time-equivalents (FTEs) by discipline, Universitywide, 2010-11

	Student	Postdoctoral Researcher	Other Staff	Faculty and Other Academic
Phys Sci, Math, Engineering, and CS	2,398	1,524	2,394	1,665
Life Sciences	561	856	1,683	1,276
Soc Sci	183	118	567	229
Prof	139	30	300	137
Arts & Hum	24	7	81	38
Other	168	242	478	216
Medicine	442	1,494	5,462	2,856
Other Health Science	196	322	1,582	679

Source: UC Corporate Personnel System. Includes full-time equivalent personnel receiving earnings from research accounts

### 10.2.1 Research expenditures by type, Universitywide, 2010-11

Salaries	\$1,886,819,861
Benefits	929,323,826
Utilities, Services, All Other	999,017,842
Subcontracts	569,397,451
Supplies	510,579,633
Non-Capitalized Equipment	370,832,674
Indirect Cost Recovery	171,645,703
<b>Total</b>	<b>5,437,616,990</b>

## Chapter 11. Health Sciences and Services

### 11.1.1 Health science instruction expenditures, Universitywide, 2010-11

<b>By fund source</b>		<b>By category</b>	
Medical/ Dental Practice Income	55%	Academic salaries	43%
Gifts, Contracts & Grants	9%	Staff salaries	15%
Other restricted funds	6%	Benefits	13%
Student Fees	4%	Supplies & Equipment	22%
General funds	26%	Other Expenses	7%

Source: UC Audited Financial Statements. "Educational Activities" primarily include professional fees, net of allowances and bad debt expense, earned by the faculty practice plans associated with UCLA, UCI, UCSD and UCD. Also includes revenues that are related to the conduct of instruction and training of students, including activities that exist to provide an instructional and laboratory experience for students that create goods and services that may be sold.

12.1 Revenue by source, UC campuses, 2000-01 to 2010-11

Source: UC Audited Financial Statements. Figures are in billions of inflation-adjusted 2009-10 dollars; Department of Energy laboratories, including the Lawrence Berkeley National Laboratory, are excluded. The Davis, Irvine, Los Angeles, San Diego and San Francisco campuses operate medical schools and teaching hospitals. In addition to the funds associated with medical school and teaching hospital operations, these programs help campuses attract additional contract and grant revenue.

Source: UC Audited Financial Statements. Medical centers include UC's hospitals and other patient care activities; auxiliaries include operations such as food service, parking and student housing; other expenses include interest, depreciation and other miscellaneous expenses. Department of Energy laboratories, including the Lawrence Berkeley National Laboratory, are not included in the data above. "Other expenditures" Includes costs such as travel, postage, rent, printing and reproduction, repairs and maintenance, insurance, and all other operating expenses not included in categories above. Also includes two line items in the nonoperating category of the University's statement of revenues, expenses and changes in net assets, gain or loss on disposition of capital assets and other nonoperating expense. Statements are available at [www.universityofcalifornia.edu/reportingtransparency](http://www.universityofcalifornia.edu/reportingtransparency).

Source: UC Audited Financial Statements. Campus-level data not available before 2003-04. The Davis, Irvine, Los Angeles, San Diego and San Francisco campuses operate medical schools and teaching hospitals. In addition to the funds associated with medical school and teaching hospital operations, the programs help campuses attract additional contract and grant revenue.
